TABLE TOP IMPRINTING SYSTEM

Greydon offers an ideal solution for coding applications that cannot be done in-line. The table top unit will print any number of different products no matter what size, shape or material. Its portable and adjustable to allow you to print dates, logos, prices, or any other information you may require. We can also design specific features for any particular product you may have.

The dual flow controls and large air cylinder used on all printers provide for a smooth consistent stroke which will not be affected by fluctuations in air pressure. In addition all of the Greydon printers feature the remarkable INKAP printhead which monitors ink absorption and print consistency while extending cartridge life. This is truly your most reliable, cost effective printing solution.

Ideal for everything
from date codes
to logos, nutritional
facts, safe handling
instructions to
product description

Cycle speeds up
to 75 per minute

Applicable to
virtually any
substrate

Easily adaptable to
different products

Utilizes 2"x2", 2"x4"
or 4"x4" printers

Uses low cost
disposal ink
cartridges

State of the art
INKAP printhead

Dual control air
cylinders

Pneumatic controls
activated with a
foot switch or
optional photo eye.
