

GB-200/300/400

HEAD MOTION SYSTEMS

GB-200/300 series are the state of the industry Head Motion Systems for in line printing directly onto your package. Utilizing a single Flatbed Printer or several, these Head Motion Systems automatically print multiple rows of packages in both web directions: with the web, across the web or a combination of both. It's the perfect solution for all multi-lane applications. From simple date codes, to nutritional facts, to product description, to handling instructions, The Head Motion Systems allow a single printer to do the work of three, six or even twelve printers.
